Fixed Asset Services

Tracet offers comprehensive fixed asset related services for organizations to have complete control and transparency of their assets. It also helps to evaluate the exact asset count, identify asset location and how these assets change over time. Also, companies can track details of each fixed asset, thus preventing the misusage of assets. Tracet services include:

1. Physical Verification – Floor to Book & Book to Floor
2. Asset Mapping – Mapping of fixed assets as per Invoices, Bills & challans
3. Creation/Review of FAR
4. Identifying complete ghost assets
5. Asset Reconciliation
6. Asset Coding – Coding of assets as per logic defined
7. Tagging of Assets – Barcoding/RFID on metal tags to fixed assets
